

# Traditional Business Phone Service is **Outdated.**

## Transform Your Business for Next-Generation Communication

With Covad **VoIP** you can:

- Reduce telecommunication costs by 20-40%
- Manage communications via web browser
- Increase employee productivity
- Deploy mobile workforce solutions

VoIP (Voice Over Internet Protocol) allows you to make telephone calls using your existing internet connection.

With a web-based interface and features like Find Me/

Follow Me call routing, your customers can find your employees whether they are in the office, on the road, or at home.

If you are looking for a powerful, integrated communications solution, then Covad can help transform the way you do business. Contact the PDS Covad sales team today at 248.522.4455 to find out how your company can benefit from VoIP.
